

Data Protection Check

Products / Service description (Summary)

In recent years, data protection requirements for companies have increased significantly. Both the EU General Data Protection Regulation (GDPR) and the revised Swiss Data Protection Act (FDPA) present companies with new challenges.

Our team of experts supports you on the way to customized data protection compliance.

We review your company's focus as well as the existing data protection and data security measures and involve your board of directors, the management and the IT and marketing specialists with a one-day workshop. Goal: Developing recommendations for action that are precisely tailored to your company and your needs.
